

Indian Ingredients

For Dehydrated Onion, Garlic & Vegetables; Indian Spices; Superfoods; Millets; and Herbs.

Typical Product Options

Forms & cuts	Whole, cut, flakes, minced, granules, crushed, ground, blended, flour or powder as applicable to the product.
Applications	Seasonings, sauces, soups, snacks, bakery, beverages, prepared foods, retail, foodservice and ingredient manufacturing.
Packaging	Typical commercial packs can include 5 kg, 10 kg and 25 kg. Custom formats are evaluated by product and volume.
Shelf life	Confirmed per product, grade, grind or cut, packaging barrier and storage requirements.
MOQ	Depends on product, origin, grade, pack and destination. Include trial and recurring volume.

Specification Points to Confirm

- Botanical or product identity and origin
- Grade, physical form, size or mesh
- Sensory, physical, chemical and microbiological criteria
- Ingredient and allergen declarations where applicable
- Pack format, label and storage conditions
- Destination-market and buyer documents

Certification Scope

References to FSSAI, APEDA, Spices Board India, ISO 22000, FDA or Halal are confirmed by product, facility, legal entity and destination as applicable.

Important: This document is an overview, not a certificate of analysis or final product specification.
